The tour continues in the Historic Stable and Tack Room before moving outside to discuss the evolution of the grounds and the botanical gardens.

Historical Gardens
The past and present come together during this 45-60 minute guided tour around the Cheekwood property. Get a detailed look at the original intentions for the landscape and the historic gardens, vistas and buildings still on the grounds today. From the grand vision first presented by the architect, Bryant Fleming, visitors will learn about the complex and layered beauty of Cheekwood and the changes and renovations made to the gardens and buildings in the nearly 60 years that Cheekwood has been open to the public.
